

FRESH + CLEAN

Jo Malone's new *Basil & Neroli* collection was inspired by the playful, young spirit of London. Created by master perfumer Anne Flipo, its white musk base blends beautifully with its neroli heart as it leads with a sophisticated basil top note. Available as cologne, body and hand wash, body crème and home candle.

MADE IN ITALY

Cities Design has introduced the new collection of luxury fashion stickers from Italian accessory brand Delicatezzen. Every piece is handmade in Italy, and eco-leather materials give each a unique 3D effect, making them the perfect addition to any favourite clothing item. Exclusively at Cities Boutique in both the Galleria Mall and The Dubai Mall locations.

NECTAR OF THE GODS

Cartier's new *L'envol de Cartier* fragrance for men was inspired by the mythical ambrosia of the gods on Olympus, believed to confer immortality. Airy, woody and nectar-like, it inspires the wearer to greatness, flying alongside one of the *maison's* greatest legends, aviation pioneer Alberto Santos-Dumont. Its *flacon* design, a capsule contained within a detachable glass dome, captures the spirit of its aroma.

DELUXE BY DESIGN

Versace Home's new collection, *Vasmara*, was inspired by a vision of urban escapism. Leopard- and zebra-print decor, precious leathers and silk jacquards with gold were used to create furniture and furnishings for living, dining and the bedroom. Innovative materials, such as precious woods for the new cabinet bar, are paired with neutral and vibrant colours such as khaki, purple, orange, haze and white.

LUXURY UNDERFOOT

The Rug Company has collaborated with top designers for timeless pieces that capture the spirit of the season. Designers include Allegra Hicks, Diane von Furstenberg, Marni, Barber & Oggersby and Kelly Wearstler. The company opened its new store recently in Alserkal Avenue in association with The Odd Piece, and is famous for craftsmanship by hand-made artisans, innovative designs, artist collaborations and exceptional quality; each rug produced is a precious piece of art.

GREAT SOUNDS, GREAT LOOKS

Designed by Pininfarina for Magnat, the new state-of-the-art *LZR948* in-ear headphones with Bluetooth aptX include the 'Beauty of Sound' that pairs elegant shapes with high-fidelity sound to give end-users a unique experience. These new 'phones not only transfer the audiophile capabilities of the legendary Magnat *LRZ* headphones to an ultra-compact housing, they also offer wireless audio connection via Bluetooth with aptX technology. But what sounds great looks even better. The artists at the famous Italian design house have created a design that highlights the fine curves in a modern, organic design and provides the perfect shell for its high-end technical interior.

NORDIC STYLE

Kährs has newly launched the *Götaland* collection, which includes five floors with names inspired by various parts of the Nordic region that reflect the scenery and atmosphere of each area. Featuring randomly scattered saw marks and bevels that frame each piece, the surface of each board is treated with several layers of oil to enhance its variations.

COLLECTOR'S ITEM

For 30 years Zaha Hadid bestowed wonder and curiosity with her iconic buildings and captivating design projects. The Zaha Hadid Collection 2016 utilises contrast as a key element, exploring colour and materiality. Featuring traditional bone china and ceramics, as well as modern resins and acrylics, its pieces have been designed using state-of-the-art techniques and are crafted by artisans across Europe.
