

## Spotlight On

Kährs latest addition to their wood floor collection is all about Chevron. The parquet flooring is a multi-layered construction made up of sustainable oak surface layer and a plywood core. The eco-friendly floor plank measures at 1848x300x15mm – allowing for swift installation – and is suitable to the Middle Eastern climate. Choose from warm white, weathered grey, classic and dark brown colours tones, or lively oak graining. Visit [nordichomeworx.com](http://nordichomeworx.com).
